

## Special Issue

# Indoor Magnetic-Based Positioning System

### Message from the Guest Editor

This Special Issue targets novel research results for indoor MBPSs, focused mostly, but not exclusively, on magnetic field generation and sensing, node architecture and connectivity, design tradeoffs, positioning algorithms, sensor fusion, and overall positioning and tracking performance.

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
