## IoT and Smart Homes

### Message from the Collection Editors

IoT networks connect sensors, actuators, and smart devices. In smart homes, they were initially used for home automation purposes, but they have been naturally extended to also track users so they can automate their actions, to optimize management of the house, and to improve users' quality of life.

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
