

Special Issue

Medical Images Processing

Message from the Guest Editor

The objective of this special issue is to provide results of high quality research on widely understood medical images processing. We would like to focus on specialized methods/algorithms developed for medical images and/or sequences of images and/or video. In particular, applications of proposed methods on real medical images, including medicine experts opinion are encouraged. We expect research papers with new results or the very good and comprehensive papers which will provide a consolidated state-of-the-art in this area (or sub-area). The topics may include, but are not limited to, the following:

- Invariant features for medical image recognition
- Fuzzy logic (fuzzy relations) in medical images processing
- Medical images annotation
- Medical images retrieval
- Medical images interpretations
- Medical images analysis and medical data mining in computer systems for supporting medical decisions (diagnosis, therapy, etc.)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
