

Special Issue

Microwave Sensing and Applications

Message from the Guest Editors

This Special Issue is dedicated to microwave sensors and their applications, especially the most recent and innovative. It will welcome papers that propose applications in areas little explored in the microwave world, as well as applications in more consolidated areas, but with innovative ideas in the technology used and materials chosen. The topics of interest include, but are not limited to, microwave sensor design, new applications of microwave sensing, metamaterial technology's application to microwave sensors, sensing for material characterization, remote sensing, short-range radar, biomedical application, imaging, agriculture and food processing applications, IoT applications, safety and security, innovative applications, and miniaturized sensor design.

Guest Editors

Prof. Dr. Paola Russo

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
