

Special Issue

Mechanical, Civil and Petroleum Engineering: Advances in Sensors and Measurement Methods of Multi-Scale Systems

Message from the Guest Editor

This Special Issue serves as a platform to bring together engineering scientists, earth scientists, and physicists with the most recent advancements in experimentation, development of sensors, and instrumentation/monitoring methods in various areas which demand interdisciplinary collaborations and multiscale analyses, particularly in relation to natural resources, space exploration, and multiscale analyses of engineering systems, among others. Original contributions with newly developed methods and research outputs in the form of full-length papers, review articles with emphasis on state-of-the-art knowledge, and preliminary results/new ideas in experimentation which are promising for future research in the form of technical note/short communication are all welcome.

For more detailed comments and topics, please click: mdpi.com/si/78710.

Guest Editor

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
