Special Issue

Nanotechnology for On-Chip Sensing

Message from the Guest Editors

The aim of this Special Issue is to exhibit the progress in on-chip sensing component developments using nanotechnologies and get insight into the problems already solved, the new findings, and current and future challenges. Works showing a critical view on results assessment, and techniques such as tools for improving key parameters, limits of detection, and efficiency are encouraged. This Special Issue will address challenges in the fabrication of components based on 2D, 1D, and OD materials and their properties and applications in sensing. Research topics include:

- MEMS sensors with sensing nanocomponents
- NEMS sensors
- Nanofabricated sensors on unconventional substrates
- Nanostructures for sensing in gas or liquid media
- Nanostructures for on-chip biosensors
- Nanostructures based sensing arrays
- Nanotechnology based chemical sensing receptors
- Nanodots, nanopores, nanorods, nanotubes, nanowires, and nanofibers in sensing
- Graphene, silicene, germanene, and other 2D materials-based sensors
- Nanotechnology for on-chip optical sensing

Guest Editors

Prof. Dr. Jaromír Hubálek CEITEC, Brno University of Technology, Brno, Czech Republic

Dr. Stella Vallejos Vargas 1. IMB-CNM (CSIC), Instituto de Microelectrónica de Barcelona, Barcelona, Spain 2. CEITEC, Brno University of Technology, Brno, Czech Republic

Deadline for manuscript submissions

closed (28 February 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological

developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
