

## Special Issue

# Advances in Optical and Laser Sensing Technologies for Environmental Applications

### Message from the Guest Editor

Optical- and laser-based sensors have long been critical for environmental monitoring applications. These include a wide array of both active and passive spectroscopic techniques as well as optical readout of other sensors. Optical technologies have continued to evolve, rapidly leading to exciting prospects for new sensors. This Special Issue focuses on state-of-the-art research in all aspects of optical and laser sensing technologies as well as their application to environmental monitoring. The goal is to highlight advances in sensors and sensing technology that help to improve the detection limit of current sensors, enable measurement of new species or parameters, decrease the size, or improve the robustness of current sensors. Submissions are encouraged from different research communities spanning physics, chemistry, environmental science, and engineering. ## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro  
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
