

Special Issue

Sensor-Based Precision Dimensional Measurement

Message from the Guest Editors

This Special Issue welcomes original articles that disclose novel sensing or measuring methodologies and instrumentations for precision dimensional measurements, including new measuring principles, novel optical or optomechatronic design and implementation, online measurements, online or in situ measurements, AI-based learning or strategies, micro/nano measurements, algorithms for uncertainty analysis and minimization, other advanced technologies for precision optical measurements, etc. Original optical measuring or sensing principles in science and technological applications for advanced technology development, as well as concern of the precision and uncertainty of the measuring methods reported, are essential in submitted manuscripts. Meanwhile, we expect authors to demonstrate in their papers: novelty, significance, the broader relevance of their work in relation to precision optical measurement.

Guest Editors

Prof. Dr. Liang-Chia Chen

Department of Mechanical Engineering, National Taiwan University,
10617 Taipei, Taiwan

Prof. Dr. Chao-Ching Ho

Graduate Institute of Manufacturing Technology, National Taipei
University of Technology, Taipei 10617, Taiwan

Deadline for manuscript submissions

closed (31 August 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
