

Special Issue

Passive Sensing for Health

Message from the Guest Editors

The advancements in sensing technology have made it possible to track, monitor, and manage the health and wellbeing of individuals outside of clinical settings. Despite the widespread interest in this technology, numerous challenges face the adaptation and efficacy of the sensing-based systems and solutions for health monitoring and intervention. This Special Issue invites submissions related to novel research approaches in passive sensing for health monitoring and management, including, but not limited to, the following: - Sensing technology and systems for the multimodal tracking of clinically relevant behavior, symptoms, and contexts; - Computational modeling and methods to use sensor data for the early detection and prediction of health-related behavior and contexts; - Methods and systems for providing feedback to patients and caregivers; - Computational methods and new technology to enable the just-in-time delivery of personalized intervention strategies; - Methodology and techniques for long-term adherence and engagement with digital health technology.

Guest Editors

Dr. Afsaneh Doryab

Department of Engineering Systems and Environment, University of Virginia, Charlottesville, VA 22904, USA

Dr. Nicholas C. Jacobson

Biomedical Data Science and Psychiatry, Center for Technology and Behavioral Health, Geisel School of Medicine, Dartmouth College, Lebanon, NH 03766, USA

Deadline for manuscript submissions

closed (10 December 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
