

## Special Issue

# Sensors and Single-Board Open Source Architectures: Design and Applications

### Message from the Guest Editors

This Special Issue focuses on the analysis, designs, implementations, methods, studies, reviews, and emerging applications for sensors and single-board open source architectures. Potential topics include, but are not limited to the following:

- Designs with embedded sensors and single-board open source architectures
- Sensors for IoT, industrial IoT (IIoT), and Industry 4.0 smart sensors
- Chemical, mechanical, electrical, magnetic, thermal, acoustic, ultrasonic, optical, radiation, or laser sensors and single-board open source architectures
- Sensors and single-board open source architectures in healthcare, environmental, energy, domotics, robotics, and drones
- Platforms based on single-board open source architectures and sensors and on-board sensors.
- Traditional, new and emergent configurations, and research and development
- Education initiative projects with single-board open source architectures and sensors integration
- Designing, modeling, simulating, and prototyping and sensors integration in single-board open source architectures
- State-of-the-art and reviews on sensors in single-board open source architectures

---

### Guest Editors

Prof. Dr. Eladio Durán Aranda

Prof. Dr. José Luis Álvarez Macías

Prof. Dr. Juan Daniel Mozo Llamazares

---

### Deadline for manuscript submissions

closed (22 July 2022)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

---

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro  
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
