

Special Issue

Sensors for Unmanned Aircraft Systems and Related Technologies

Message from the Guest Editor

This Special Issue aims to provide a comprehensive overview of state-of-the-art sensor technology for use on—or as part of—Unmanned Aircraft Systems. We invite research articles that consolidate our understanding of the state-of-the-art in this area. The Special Issue will publish full research, review, and highly rated manuscripts addressing the above topic. Dr. Sean Bailey

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
