

Special Issue

Smart Internet of Things and Intelligent Computing

Message from the Guest Editors

The Internet of Things (IoT) plays an important role in the current and future generations of information, network, and communication development and applications.

Smart IoT is an exciting emerging research field that has great potential to transform both our understanding of fundamental computer science principles and our standard of living. IoT technology is being employed in an increasing number of areas, making such applications “smart”, including smart homes and smart cities, as well as intelligent transportation, environment monitoring, security systems, and advanced manufacturing. The International Conference on Smart Internet of Things (SmartIoT) and International Conference on Information Science and Technology (ICIST) focus on these challenges. This Special Issue is dedicated to publishing original research papers that propose new methodologies and research directions and discuss approaches or schemes for current existing issues (especially from the SmartIoT2021 and ICIST2021 conferences). For further information about the special issue, please visit

mdpi.com/journal/sensors/special_issues/smartIoT2021.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
