Smart Environments: Current Trends and Future Directions

Message from the Guest Editor

The purpose of this Special Issue is to publish original, important, and visionary papers describing scientific methods and technologies that improve the efficiency, productivity, quality, and reliability of smart environments. In this Special Issue, we want to focus on understanding what needs to be done to make efficient, human, and environmentally friendly, and sustainable intelligent social systems a reality. We strongly encourage the contribution of scientific results from experts from universities and companies around the world. Best regards,

Guest Editor

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
