

Special Issue

Multi and Hyperspectral Remote Sensing for Tropical and Subtropical Forest

Message from the Guest Editors

This Special Issue is aimed to the submission of both review and original research articles related to multi and hyperspectral applications in subtropical and tropical regions worldwide. The Special Issue is open to contributions ranging from land use/cover change, water resources management, environmental monitoring, biodiversity assessments, ecological succession, forest health and quality, smart agriculture, times series analyses, as well as innovative approaches using sensor fusion and drone base remote sensing. Original contributions that look at integrated sensor base technologies (e.g., wireless sensor networks) with multi or hyperspectral remote sensing platforms (drone, airborne, and spaceborne) are also encouraged.

Guest Editors

Prof. Dr. Arturo Sanchez-Azofeifa

Earth and Atmospheric Sciences Department, University of Alberta, Edmonton, AB T6G 2R3, Canada

Dr. Carlos Portillo-Quintero

Department of Natural Resources Management, College of Agricultural Sciences and Natural Resources Management, Texas Tech University, Lubbock, TX, USA

Deadline for manuscript submissions

closed (31 March 2017)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
