

Special Issue

Wearable Technology for Occupational Risk Assessment and Prevention

Message from the Guest Editors

This Special Issue aims to highlight the most recent research regarding wearables for occupational risk assessment and prevention, sensor-based techniques for accident and illness reduction, and more generally, sensor-based methods and techniques to obtain safer occupational environments. Contributions that address, but are not restricted to, the following topics are welcome:

- Wearable sensors;
- Reliability and validity of sensor-based measurements;
- Sensor-based feedback on motor performance, motion and activity detection;
- Recognition of work-related musculoskeletal disorders by sensors and/or wearable devices;
- Fall detection systems;
- Innovative applications for monitoring occupational safety and health risk factors;
- Smart clothing/textiles technologies for monitoring occupational safety and health risk factors;
- Smart-phone innovative applications for monitoring occupational safety and health risk factors;
- Wearable Technology for physical, chemical and / or biological exposure monitoring;
- Body sensors networks.

Guest Editors

Dr. Ignacio Pavón
Dr. Juan Manuel López
Dr. Néilson Costa

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
