Special Issue

Wearable Soft Sensors

Message from the Guest Editor

Wearable soft sensors have been actively researched due to their ability to provide accurate measurement of body movement and force with improved wearability. Various materials and manufacturing methods can be used for soft sensors depending on what kind of physical principle is used. Additionally, the design and verification of wearable parts considering the characteristic and purpose of the soft sensors are crucial for wearable soft sensors. This Special Issue is designed to introduce all types of novel soft sensor research, including manufacturing methods, materials, application to wearable systems, such as virtual reality interfaces, health care systems, motion capture systems, and so on.

Guest Editor

Dr. Joonbum Bae

Associate Professor, Department of Mechanical Engineering, UNIST (Ulsan National Institute of Science and Technology), Ulsan 44919, Korea

Deadline for manuscript submissions

closed (31 August 2019)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
