Topical Collection

Feature Paper Collection in Section ‘Chromatographic Separations’

Message from the Collection Editors

This Topical Collection is investigating the introduction of new, more effective technologies based on the application of chromatographic techniques for the seperation mixture of compounds in difficult matrices. It is focused on the recent findings in the field of the seperation of compounds, the development of analytical protocols based on chromatographic methods, and their application in environmentally friendly processes. The Topical Collection “Chromatographic Seperations” welcomes high-quality research works that focus on the development of new analytical protocols for the analysis of mixtures of compounds, implementation of these systems, ideas, technologies, and extraction methods that are relevant to promote a greener analytical chemistry.

Collection Editors

Prof. Dr. Victoria Samanidou

Laboratory of Analytical Chemistry, School of Chemistry, Aristotle University of Thessaloniki, 54124 Thessaloniki, Greece

Dr. Evroula Hapeshi

Pharmacy Programme, Department of Health Sciences, School of Life and Health Sciences, University of Nicosia, 46 Makedonitissas Avenue, P.O. Box 24005, Nicosia 1700, Cyprus

About the Journal

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Editor-in-Chief

Prof. Dr. Frank L. Dorman
Department of Chemistry, Dartmouth College, Hanover, NH 03755, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
