# **Special Issue**

# Application of Chromatographic Techniques for the Determination of Active Pharmaceutical Compounds

## Message from the Guest Editors

This Special Issue, "Application of Chromatographic Techniques for the Determination of Active Pharmaceutical Compounds", aims to showcase cutting-edge research and comprehensive reviews that highlight the evolution and application of chromatographic techniques in drug analysis. We seek to collate contributions that demonstrate significant advancements in separation science, including novel stationary phases, miniaturized systems, hyphenated techniques, and sophisticated data analysis workflows. The focus will be on applications that address real-world challenges, such as overcoming matrix effects, enhancing sensitivity and selectivity, and achieving green analytical chemistry principles.

# **About the Journal**

## Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, Separations, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

### Editor-in-Chief

Prof. Dr. Frank L. Dorman

Department of Chemistry, Dartmouth College, Hanover, NH 03755, USA

## **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).

## Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
