

Special Issue

Advanced Research on Membrane Separation Performance

Message from the Guest Editor

This Special Issue of *Separations* on “Advanced Research on Membrane Separation Performance” provides a forum for comprehensive coverage of the application of membrane technology, the effect of membrane preparation on the separation performance, the problems encountered during membrane separation and their solutions, etc. Both original research articles and reviews are welcome. All submissions will undergo peer review.

Guest Editor

Dr. Weichen Lin

Department of Environmental Engineering, Tsinghua University, Beijing, China

Deadline for manuscript submissions

closed (10 October 2023)

About the Journal

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Editor-in-Chief

Prof. Dr. Frank L. Dorman
Department of Chemistry, Dartmouth College, Hanover, NH 03755,
USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q2 (Analytical Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
