Special Issue

Materials from Biomass and Waste for Adsorption Applications

Message from the Guest Editor

This Special Issue is dedicated to innovative research and recent advancements in utilizing unmodified, modified, and functionalized biomass and waste materials as potent adsorbents to address water pollution challenges. Topics of interest include, but are not limited to, the following: the modification and characterization of adsorbents derived from various biomass and waste materials; adsorption studies on inorganic and organic pollutants; thermodynamic, equilibrium, and kinetic studies of adsorption; adsorption mechanism analysis; the process design of pollutant removal using theoretical calculation methods, modeling, and simulation; and regeneration and recovery assessments. Authors are encouraged to submit original research papers, reviews, and short communications in these areas.

Guest Editor

Dr. Marija M. Vukčević
Faculty of Technology and Metallurgy, University of Belgrade, Karnegijeva 4, 11000 Belgrade, Serbia

Deadline for manuscript submissions

30 June 2026

About the Journal

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Editor-in-Chief

Prof. Dr. Frank L. Dorman
Department of Chemistry, Dartmouth College, Hanover, NH 03755, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q2 (Analytical Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
