

## Special Issue

# Isolation of Natural Compounds —Emphasis on Antioxidants' Purification

### Message from the Guest Editor

The structural variety of natural products is endless. Since the dawn of humanity, nature has provided many molecules that possess beneficial effects; a larger number of these are still utilized to this day. Natural products are a challenge both in their chemical and pharmacological aspects. Due to the complex compositions of extracts, their activity is difficult to investigate. For this reason, the isolation of natural products from complex extracts is of significant importance. This Special Issue aims to publish high-quality articles and reviews, discussing modern, eco-friendly, and practical methods for the extraction, separation, purification, and isolation of natural compounds, particularly those with antioxidant activity.

### Guest Editor

Dr. Aleksandar Shkondrov

Department of Pharmacognosy, Faculty of Pharmacy, Medical University of Sofia, 2 Dunav St., 1000 Sofia, Bulgaria

### Deadline for manuscript submissions

closed (20 December 2024)

## About the Journal

### Message from the Editor-in-Chief

*Separations* offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
