Advances in Fabric Phase Sorptive Extraction

Message from the Guest Editor

Fabric phase sorptive extraction (FPSE), a new-generation green sample preparation technique, has drawn considerable interests in recent years among practicing scientists and researchers in many different fields, including analytical chemistry, bioanalytical chemistry, clinical chemistry, food science, environmental chemistry, pharmaceutical chemistry, forensic science, and sports science. I take the pleasure to invite you to contribute original research articles and review papers for this Special Issue, "Advances in Fabric Phase Sorptive Extraction", which will highlight the advantages of FPSE as a green and simple sample preparation technology over its conventional counterparts.

About the Journal

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Editor-in-Chief

Prof. Dr. Frank L. Dorman

Department of Chemistry, Dartmouth College, Hanover, NH 03755,
USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
