Recent Advances in Environmental Separations Analysis

Message from the Collection Editor

Nowadays, environmental issues are facing several serious challenges, including all kinds of emissions and pollution threatening the environment and human health. Environmental analysis includes all analytical aspects of studies related to environmental problems and their management. Treatment of soil, water and air pollution, and recovery of metals and resources from soil, water and solid wastes can have a great contribution to the environmental analysis section. Apart from that, the development of new analytical methods or improvement of current techniques for the monitoring of contaminants is of paramount importance for this section. Your valuable unpublished research and review papers can find a worldwide audience among readers of *Separations*.

About the Journal

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Editor-in-Chief

Prof. Dr. Frank L. Dorman

Department of Chemistry, Dartmouth College, Hanover, NH 03755,
USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
