# **Special Issue**

### Advanced Oil–Water Separation Technology

### Message from the Guest Editor

Oil-water mixtures are widely produced in our daily life and industrial production, evident in oil spills, mechanical processing, etc. The direct discharge of untreated oil-water mixtures will cause serious environmental pollution, ecological damage, and even danger to human health. How to achieve efficient separation of oil-water mixtures has become an urgent global issue. This Special Issue aims to highlight the progress made in the devleopment of oil-water separation technology. We welcome contributions (original research papers and review articles) that report on advanced technology, new materials, new methods, and membranes with special wettability for separating lavered oil-water mixtures or emulsified oil-water mixtures (e.g., oil-in-water emulsions, water-in-oil emulsions).

## About the Journal

### Message from the Editor-in-Chief

Separations offers the scientific community a highquality, open-access journal option with rapid time-topublication without any sacrifice of a rigorous peerreview process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

### Editor-in-Chief

Prof. Dr. Frank L. Dorman Department of Chemistry, Dartmouth College, Hanover, NH 03755, USA

### **Author Benefits**

### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).

#### **Recognition of Reviewers:**

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
