

Special Issue

10th Anniversary of *Separations*: Recent Advances in Analysis of Food and Beverages

Message from the Guest Editor

This Special Issue focuses on outlining the recent advances in the analysis of food and beverages. Techniques such as liquid chromatography, gas chromatography, and capillary electrophoresis can be used to characterize, classify, and authenticate a wide range of agrifood products and assess food quality. The conjunction of separation methods with chemometrics has opened up great opportunities for a more comprehensive analysis of chromatographic or electrophoretic data. Beyond these well-established options, papers based on new instrumental techniques, such as ion mobility spectrometry and microchip-based devices, will also be welcome.

About the Journal

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Editor-in-Chief

Prof. Dr. Frank L. Dorman
Department of Chemistry, Dartmouth College, Hanover, NH 03755,
USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
