

## Special Issue

# Analytical Methods and Application of Separation Techniques in Food Science

### Message from the Guest Editors

Food products are complex matrices containing various molecules, which can have beneficial or harmful effects on human health, determine the flavour of foodstuffs, and be related to food spoilage. The development of separation techniques resulted in the massive increase of studies focused on the analysis of compounds in food samples. For further reading, please follow the link to the Special Issue Website at: [https://www.mdpi.com/journal/separations/special\\_issues/Separation\\_Food](https://www.mdpi.com/journal/separations/special_issues/Separation_Food)

### Guest Editors

Dr. Natalia Drabińska

1. Department of Chemistry and Biodynamics of Food, Institute of Animal Reproduction and Food Research of Polish Academy of Sciences, 10-748 Olsztyn, Poland
2. Institute of Food Technology of Plant Origin, Poznań University of Life Sciences, 31 Wojska Polskiego Street, 60-624 Poznań, Poland

Dr. Marta Ferreira-González

Department of Analytical Chemistry, Faculty of Sciences, IVAGRO, Agrifood Campus of International Excellence (ceiA3), University of Cadiz, 11510 Puerto Real, Cadiz, Spain

### Deadline for manuscript submissions

closed (31 March 2022)

## About the Journal

### Message from the Editor-in-Chief

*Separations* offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

---

### Editor-in-Chief

Prof. Dr. Frank L. Dorman  
Department of Chemistry, Dartmouth College, Hanover, NH 03755,  
USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
