Selected Papers from the 29th International Symposium on Separation Sciences (ISSS 2025)

Message from the Guest Editors

The '29th International Symposium on Separation Sciences' (ISSS 2025) will be held at the end of September 2025 in Belgrade. The conference aims to provide an opportunity for young researchers to deepen their knowledge and current advances in chromatography and other separation techniques, coupled techniques and sample preparation techniques. The congress focuses on the fundamental and practical aspects of separation and detection methods, sample preparation and related or combined and miniaturized techniques applied for analytical, preparative and industrial purposes. The main themes of the symposium will focus on the following: gas chromatography, liquid chromatography, thin-layer chromatography, ion chromatography, supercritical fluid chromatography, capillary electrophoresis, electromigration techniques, hyphenated techniques, multidimensional separations, miniaturised separation techniques, sample preparation techniques, environmental analysis, food analysis, pharmaceutical analysis, clinical analysis, forensic analysis, natural product analysis, industrial analysis, chemometrics, and others.

Guest Editors

Prof. Dr. Živoslav Lj. Tešić

Dr. Branka Ivković

Dr. Milica Kalaba

Deadline for manuscript submissions

31 March 2026

About the Journal

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Editor-in-Chief

Prof. Dr. Frank L. Dorman
Department of Chemistry, Dartmouth College, Hanover, NH 03755,
USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
