Exclusive Papers Collection of Scholars Invited by Editorial Board Members of *Separations*

Message from the Guest Editors

The development of science and technology has benefited humanity in an uncountable number of ways, and separations is a field that has greatly contributed to this development. The open-access journal *Separations* covers separation and purification science and technology in all areas of chemical, biological, and physical science, as well as separation performance. It publishes original research papers, reviews, and short communications. This Special Issue is designed to gather papers invited by the Editorial Board Members of *Separations*. We kindly invite and encourage all research groups to make contributions to this Special Issue.

About the Journal

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.
