

Special Issue

Five Years of Separations: Feature Paper 2018

Message from the Guest Editors

To celebrate the fifth year of the publication of *Separations*, we have the honor to edit a new Special Issue. The Special Issue will collect original research papers from the frontiers of separation research, as well as review articles from prominent scholars, highlighting the state-of-the-art of separation science and technology. We invite researchers and technologists, whose work focuses on separations and related applications, to contribute with papers disseminating their excellent research findings. We consider that this issue can provide a multidisciplinary approach to separation techniques and it will be the best forum for sharing innovative ideas in the field. We are looking forward to receiving your work. Prof. Dr. Victoria F. Samanidou

About the Journal

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Editor-in-Chief

Prof. Dr. Frank L. Dorman

Department of Chemistry, Dartmouth College, Hanover, NH 03755,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
