Applications of Ionic Liquids in Separation and Purification

Message from the Guest Editor

In recent years, the use of ionic liquids in the separation sciences for the development of "greener" extraction and purification processes has attracted growing interest from the scientific community. In this context, the journal *Separation*, published by MDPI, has decided to dedicate a Special Issue to "The Application of Ionic Liquids in Separation and Purification Methods". The aim is to focus on the use of ionic liquids in extraction, separation, and purification processes for strategic or high-added-value compounds (metals, biomolecules, etc.). Given your expertise in this field, I invite you to contribute to this Special Issue by submitting an original research paper. Your contribution will help this Special Issue have a significant impact on the scientific research community. Thank you for your consideration.

About the Journal

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Editor-in-Chief

Prof. Dr. Frank L. Dorman

Department of Chemistry, Dartmouth College, Hanover, NH 03755,
USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2024).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
