The 2022 7th International Conference on Intelligent Information Processing

Guest Editors:

Dr. Francisco Martínez González

Departamento de Matemática Aplicada y Estadística, Universidad Politécnica de Cartagena, Cartagena, Spain

Dr. Mohammed K. A. Kaabar

Chinese Institute of Electric Power, Samarkand International University of Technology, Samarkand 140100, Uzbekistan

Deadline for manuscript submissions:
closed (31 August 2023)

Message from the Guest Editors

Dear Colleagues,

The 2022 7th International Conference on Intelligent Information Processing (ICIIP) is hosted by the Romanian-American University; organized by the Romanian Academy, Center for Mountain Economics; the Romanian Academy, Center for Financial and Monetary Research—Victor Slăvescu; and the International Engineering and Technology Institute. This conference is one of the leading international conferences in the research area of intelligent information processing. The main goal of this conference is to provide an innovative exchange platform for students, engineers, practitioners, faculties, and researchers from all over the world. Running since 2016, this conference will be held for the seventh time after a successful history of its previous versions in the past years from 2016 to 2021 that were held in various countries worldwide, including in Australia, China, Malaysia, Romania, and Thailand. ICIIP 2022 will be held during September 29–30, 2022, in Bucharest, Romania. This conference Special Issue is focused on addressing a wide range of theoretical aspects and applications of intelligent information processing.

Special Issue

Editor-in-Chief

Prof. Dr. Santiago Marco
1. Department of Electronics and Biomedical Engineering, University of Barcelona, Marti I Franqués 1, 08028 Barcelona, Spain
2. Signal and Information Processing in Sensor Systems, Institute for Bioengineering of Catalonia, The Barcelona Institute of Science and Technology, Baldiri Rexac 10-12, 08028 Barcelona, Spain

Message from the Editor-in-Chief

Our primary goal is to encourage scientists and engineers to publish their theoretical results and developed methods in as much detail as possible. There is no limit to the maximum length of papers. Whenever possible, authors are encouraged to provide relevant data and developed code so that the results can be reproduced. Our goal is to provide a platform for scientists and engineers to share new approaches to signal processing in various application domains.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.
Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the first half of 2024).
