Reviews on Applied Biomedical Signal Processing

Message from the Guest Editors

We are pleased to announce a new Special Issue on “Reviews on Applied Biomedical Signal Processing”. There are many signal processing techniques that have proven their usefulness when applied to solve medical and biological problems. Here, we offer a scientific forum to share interesting and rigorous reviews on these topics. The purpose of this Special Issue is not only to gather classic bibliographic reviews, which are of course very welcome, but also any kind of systematic audit of methodological approaches over one or several subjects within a shared framework...

About the Journal

Message from the Editor-in-Chief

Our primary goal is to encourage scientists and engineers to publish their theoretical results and developed methods in as much detail as possible. There is no limit to the maximum length of papers. Whenever possible, authors are encouraged to provide relevant data and developed code so that the results can be reproduced. Our goal is to provide a platform for scientists and engineers to share new approaches to signal processing in various application domains.

Editor-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 7.6 days (median values for papers published in this journal in the first half of 2025).

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q2 (Engineering (miscellaneous))
