

Special Issue

Advances in Signal Detecting and Processing

Message from the Guest Editors

Signal detection and processing have been widely applied in various fields such as radar, communication, sonar, navigation, biomedical, geophysical, speech processing, image processing, and deep learning. With the development of technology, especially artificial intelligence, new signal detection and processing technologies continue to emerge, and the application fields of some traditional technologies have also been expanded. This Special Issue aims to provide a platform for researchers in the field of signal detection and processing technology, and to promote communication and innovation in this field. In this Special Issue, we invite research papers presenting advanced methods and novel applications of signal detection and processing technologies.

Guest Editors

Dr. Wei Xue

Prof. Dr. Li Liu

Dr. Yue Yang

About the Journal

Message from the Editor-in-Chief

Our primary goal is to encourage scientists and engineers to publish their theoretical results and developed methods in as much detail as possible. There is no limit to the maximum length of papers. Whenever possible, authors are encouraged to provide relevant data and developed code so that the results can be reproduced. Our goal is to provide a platform for scientists and engineers to share new approaches to signal processing in various application domains.

Editor-in-Chief

Prof. Dr. Santiago Marco

1. Department of Electronics and Biomedical Engineering, University of Barcelona, Martí I Franqués 1, 08028 Barcelona, Spain
2. Signal and Information Processing in Sensor Systems, Institute for Bioengineering of Catalonia, The Barcelona Institute of Science and Technology, Baldiri Rexac 10-12, 08028 Barcelona, Spain

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 7.6 days (median values for papers published in this journal in the first half of 2025).

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q2 (Engineering (miscellaneous))
