Nasal Polyposis in Chronic Rhinosinusitis: Recent Advances in Diagnosis and Management

Message from the Guest Editor

Nasal polyposis, a hallmark feature of certain forms of chronic rhinosinusitis (CRS), represents a significant clinical challenge due to its complex pathophysiology, high recurrence rate, and impact on patients' quality of life. As a subtype of CRS, chronic rhinosinusitis with nasal polyps (CRSwNP) is increasingly recognized as a heterogeneous inflammatory disorder that involves multifactorial etiologies, including immune dysregulation, epithelial barrier dysfunction, microbial influences, and genetic susceptibility. We invite clinicians, researchers, and translational scientists to contribute to this Special Issue and help shape the future of personalized care for patients with nasal polyposis and chronic rhinosinusitis.

Guest Editor

Prof. Dr. Sy Duong-Quy

About the Journal

Message from the Editor-in-Chief

Sinusitis is an international, peer-reviewed, open access journal, which supports the whole field of sinusitis and its related areas, with the aim to bridge the gap between medical research and clinical practice about sinusitis. The journal is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance, thus allowing the scientific community and the public to have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eleonora Nucera

Allergy Unit, Fondazione Policlinico Universitario A. Gemelli IRCCS,
Università Cattolica del Sacro Cuore, Largo F. Vito, 1, 00168 Rome, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 33.3 days after submission; acceptance to publication is undertaken in 4.7 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and reviewer names published annually in the journal.
