

Special Issue

Clinical Research in Chronic Rhinosinusitis

Message from the Guest Editor

The evolution in our understanding and treatment of chronic rhinosinusitis has been rapid, but there are still many unanswered questions. Fundamental questions remain, including who should be operated on, what operation to do, what routine peri-operative care should be, and how to best manage disease recalcitrance. Similarly, there is increasing understanding and recognition of biologics and non-surgical therapies, but their role remains to be fully defined. This Special Issue welcomes articles, letters, communications, and reviews directed towards optimizing the clinical management of patients with chronic rhinosinusitis.

About the Journal

Message from the Editor-in-Chief

Sinusitis is an international, peer-reviewed, open access journal, which supports the whole field of sinusitis and its related areas, with the aim to bridge the gap between medical research and clinical practice about sinusitis. The journal is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance, thus allowing the scientific community and the public to have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eleonora Nucera

Allergy Unit, Fondazione Policlinico Universitario A. Gemelli IRCCS,
Università Cattolica del Sacro Cuore, Largo F. Vito, 1, 00168 Rome, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 33.3 days after submission; acceptance to publication is undertaken in 4.7 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and reviewer names published annually in the journal.
