

## New Engineering Approaches in Smart Cities, Theory and Application

Guest Editors:

**Dr. Mohammad Ghiasi**

Electronic Systems Engineering,  
University of Regina, Regina, SK  
S4S0A2, Canada

**Dr. Noradin Ghadimi**

Ardabil Branch, Islamic Azad  
University, Ardabil, Iran

Deadline for manuscript  
submissions:

**closed (31 March 2023)**

### Message from the Guest Editors

Engineering sciences are widely applied in smart and intelligent systems. Smart energy systems, smart cities, smart power grids, and smart homes are among these examples that are widely related to engineering sciences. The increasing development of these systems requires the effective use of emerging technologies and the use of algorithms and optimal designs.

In this Special Issue, we will aim to study and analyze new engineering methods and approaches in smart cities in terms of theory and application. Furthermore, we intend to examine the latest ideas and new findings presented in engineering related to urban smartness in a practical way. In this regard, this Special Issue will focus on application of engineering in smart energy systems and smart cities. Supporting topics such as theory of control, analysis, measurement, and the simulation and performance assessment of intelligent structures also will be covered.

an Open Access Journal by MDPI

Innovation Systems, University of  
Salerno, 84084 Salerno, Italy

## Message from the Editor-in-Chief

*Smart Cities* provides an advanced forum for the dissemination of information on the science and technology of smart cities. It publishes reviews, regular research papers (articles) and communications in all areas of research concerning smart cities. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers so that the full experimental results can be reproduced. Manuscripts regarding research proposals and research ideas are particularly welcome.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Inspec](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** CiteScore - Q1 (*Urban Studies*)
