Deadline for manuscript  
submissions:

**closed (30 June 2022)**

### Message from the Guest Editors

Dear Colleagues,

The increased awareness of environmental and energetic issues is changing our cities and our habits. The widespread increment of renewable energy sources, energy monitoring platforms, and electrical vehicles are some examples of the technological transition that we are experiencing at present. Electrical grids and the adopted relative strategies to manage them are quickly evolving as well, with an increasing number of installed sensors and actuators, and the usage of more and more sophisticated management algorithms, for example, to locate faults or to predictively maintain electrical components. The objective of distributor system operators is to support the technological transition, guaranteeing a high-quality level of the energy dispatch service.

With this Special Issue on “Innovative Energy Systems for Smart Cities”, we are interested in grouping together all the contributions that describe the changes in energy systems, both from a technical and conceptual point of view.

We kindly invite you to submit a manuscript to this Special Issue. Full papers, communications, and reviews are all welcome.

an Open Access Journal by MDPI

Salerno, 84084 Salerno, Italy

## Message from the Editor-in-Chief

*Smart Cities* provides an advanced forum for the dissemination of information on the science and technology of smart cities. It publishes reviews, regular research papers (articles) and communications in all areas of research concerning smart cities. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers so that the full experimental results can be reproduced. Manuscripts regarding research proposals and research ideas are particularly welcome.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Inspec](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** CiteScore - Q1 (*Urban Studies*)
