

## Special Issue

# Allergic Rhinitis: Epidemiology, Prevention and Management (Transferred to Medical Sciences)

### Message from the Guest Editor

Allergic rhinitis is a common respiratory disease that not only can strongly affect the quality of life of many patients but also can be detrimental to work performance and generate productivity and healthcare costs. Inflammatory mechanisms are nowadays better understood, which allows us synthesize more effective treatments and to establish specific guidelines to facilitate prevention and management of the disease, specially to avoid complications that may appear. This Special Issue will focus on the causes underlying the occurrence of allergic rhinitis, on the strategies to prevent it and other comorbidities, the patient monitoring during diagnostic, development and treatment of the disease and on healthcare management.

### Guest Editor

Prof. Dr. Hideyuki Kawauchi

Distinguished Invited Researcher, Department of Microbiology, Shimane University, Faculty of Medicine, Matsue, Japan

### Deadline for manuscript submissions

closed (1 October 2018)

## Sinusitis and Asthma

## About the Journal

### Message from the Editor-in-Chief

---

#### Author Benefits

##### Open Access:

free for readers, free publication for well-prepared manuscripts submitted in 2018.

##### Rapid publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 6 days (median values for papers published in the first six months of 2018).

##### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
