

Special Issue

Exemplars in Social Research

Message from the Guest Editor

In this special issue of *Societies* we feature some examples of the outstanding articles you can expect to find in this journal. Our authors, all of whom serve on our editorial board, represent a diverse range of disciplines in the humanities and social sciences and bring varied and challenging perspectives to our understanding of the social realm. They are among the world's leading scholars in their respective fields and their work exemplifies excellence in research on human societies.

About the Journal

Message from the Editor-in-Chief

Societies (ISSN 2075-4698) is an interdisciplinary journal that brings together different scientific approaches to engage with societal questions to enhance our understanding of the social realm throughout history. The journal publishes original empirical research papers, literature reviews, and conceptual papers. Our aim is to publish papers that have a significant impact on addressing present and emerging societal questions. Therefore, we encourage researchers to publish their results in as much detail as possible. For empirical research papers and literature reviews, all experimental details must be provided, so that the results are reproducible. We also encourage the publication of timely theoretical pieces on topics of interest to existing and emerging societal questions. Papers are either published in the open journal or in Special Issues devoted to specific topics of interest to the field.
