Deadline for manuscript
submissions:

31 July 2024

Message from the Guest Editors

The growing population of senior citizens presents both a social phenomenon and a challenge for our societies, with technological advancements playing a pivotal role in connecting and enhancing the lives of older adults in various aspects. However, within current discussions surrounding technology, the human element is often overshadowed. Seniors are sometimes perceived as malfunctioning machines, with their limitations viewed as challenges to be overcome through technological solutions. To address this issue, new perspectives are necessary, prioritizing the human experience. This shift in perspective allows us to acknowledge the complexities of the relationship between humans and technology, and to adapt technological advancements to better suit the needs of the older population. It is also important to incorporate emerging perspectives looking into digital inclusion and design, cultural models of ageing and technology, digital inclusion, media practices, ageing in place and data, technology paradoxes, feminist perspectives on care regarding relationality and reciprocity and more broadly, the mutual shaping of ageing and technology.

Abstract Submission Deadline: 1 Mar 2024

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Social Sciences is an international open access peer-reviewed journal publishing the latest research across all disciplines of the social sciences including anthropology, criminology, economics, education, geography, history, law, linguistics, political science, psychology, social policy, social work, sociology and related areas. The journal is especially interested in interdisciplinary research, and aims to facilitate the interaction and communication between different social scientific disciplines. The journal welcomes conventional length articles as well as shorter Research Notes or short articles, as long as they meet the journal's standards of quality and originality.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed within Scopus, ESCI (Web of Science), RePEc, and other databases.

Journal Rank: CiteScore - Q1 (*General/Social Sciences*)
