Message from the Guest Editors

Dear Colleagues,

Gender inequality is an unpleasant fact in most parts of the world, particularly in developing countries, where significant gaps between men and women are present in the labor market, as well as in political representation or bargaining power in the household. For instance, women tend to be segregated in a few productive sectors, which translates into gaps in their earnings and productivity with respect to men. Another important aspect of gender inequality in the labor market that has not been much studied is the role of women in entrepreneurial activities. There exists some evidence that the value added of men and the profitability of firms owned by men is significantly higher than those of women. Contributors to this issue are invited to explore questions such as, but not limited to:

- Misallocation of factors due to gender discrimination
- Gender inequality and economic growth
- Firm size and firm growth by gender
- Determinants of entrepreneurship by gender
- Household production
- Time use within couples
- Child leave and family friendly policies
- Statistical discrimination
- Supply and demand determinants of gender gaps

Message from the Editor-in-Chief

Social Sciences is an international open access peer-reviewed journal publishing the latest research across all disciplines of the social sciences including anthropology, criminology, economics, education, geography, history, law, linguistics, political science, psychology, social policy, social work, sociology and related areas. The journal is especially interested in interdisciplinary research, and aims to facilitate the interaction and communication between different social scientific disciplines. The journal welcomes conventional length articles as well as shorter Research Notes or short articles, as long as they meet the journal's standards of quality and originality.

Author Benefits

Open Access: free for readers, with article processing charges (APC) partially funded by institutions through Knowledge Unlatched for a limited number of papers in 2019. Please contact the editorial office before submission to check whether KU waivers, or discounts are still available.

High visibility: Indexed in Scopus and other databases.

Rapid publication: manuscripts are peer-reviewed and published online approximately 24.2 days after submission; acceptance to publication is undertaken in 4.8 days (median values for papers published in this journal in the second half of 2018).
