

Special Issue

Ethical Challenges in the Intersection of AI, Digital Technology, and Society

Message from the Guest Editors

This Special Issue of Social Sciences aims to explore the ethical dimension at the intersection of technology, AI, and society—a vast, multifaceted, and dynamic space that requires a complementary and interdisciplinary approach. We are particularly interested in fostering critical reflection on the role ethics should play in shaping, developing, and implementing technologies that directly affect human lives. How can we ensure that algorithmic systems respect human dignity? What risks arise from the automation of decision-making? What normative frameworks and values should guide the design and use of these technologies? How to achieve an ethical and responsible AI governance? Can AI contribute to human flourishing and a flourishing society? We encourage researchers and scholars to address these questions constructively and with a strong grounding in their respective fields of expertise.

About the Journal

Message from the Editor-in-Chief

Social Sciences is an international open access peer-reviewed journal publishing the latest research across all disciplines of the social sciences including anthropology, criminology, economics, education, geography, history, law, linguistics, political science, psychology, social policy, social work, sociology and related areas. The journal is especially interested in interdisciplinary research, and aims to facilitate the interaction and communication between different social scientific disciplines. The journal welcomes conventional length articles as well as shorter Research Notes or short articles, as long as they meet the journal's standards of quality and originality.

Editor-in-Chief

Emeritus Prof. Nigel Parton

School of Human and Health Sciences, University of Huddersfield,
Huddersfield HD1 3DH, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility:

indexed within Scopus, ESCI (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q2 (Social Sciences, Interdisciplinary) / CiteScore - Q2 (General Social Sciences)
