

Special Issue

Automated Testing of Modern Software Systems and Applications

Message from the Guest Editor

This Special Issue welcomes contributions regarding novel automated testing approaches improving the state-of-the-art on testing modern software with a particular (but not limited) focus on Web, Mobile, IoT, ML/AI-based systems, and applications. Topics of interest include but are not limited to the following:

- Testing of web applications;
- Testing of mobile applications (e.g., Android, iOS);
- Testing of Internet of Things systems;
- Testing of Machine Learning and Artificial Intelligence-based systems/applications
- Automated generation and maintenance of test cases for modern systems/applications;
- End-to-end testing of web and mobile applications;
- Acceptance and system testing of modern systems/applications;
- Machine Learning and Artificial Intelligence applied to software testing;
- Tools and frameworks for testing modern systems/applications;
- Empirical studies on modern systems/applications testing (e.g., experiments, surveys, literature reviews).

Guest Editor

Dr. Maurizio Leotta

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Mirko Viroli

Department of Computer Science and Engineering, Alma Mater
Studiorum Università di Bologna, via dell'Università 50, 47521 Cesena
FC, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 28.9 days after submission; acceptance to publication is undertaken in 4.2 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and reviewer names published annually in the journal.
