

Joint Special Issue

Second Edition: Sport Psychology Interventions for Athletes' Performance and Well-Being

Message from the Guest Editor

This Special Issue of *Sports* aims to provide a platform for constructive discussion on up-to-date scientific data in this area. Thus, we invite authors to submit original research and/or specific reviews that enhance our understanding of “Sport Psychology Interventions for Athletes' Performance and Well-being”. Papers addressing novel outcomes obtained using traditional interventions (e.g., imagery, self-talk) and those on emerging techniques (e.g., yoga for athletes; technology-based interventions) are more than welcome.
