

## Special Issue

# Standards and Assessment of Construction Products

### Message from the Guest Editor

Construction product assessment is a complex, challenging, and not always fully defined issue. It is perceived differently by different stakeholders of the construction product market, especially by industry, academia, and regulators. A Special Issue of *Standards* dedicated to evaluating construction products is important, and I invite everyone interested in assessing construction products to publish in this Special Issue of *Standards*.

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Peter Glavič

Department of Chemical Engineering, University of Maribor, 2000  
Maribor, Slovenia

---

#### Author Benefits

##### Open Access:

free for readers to download, share, and reuse content.  
Authors receive recognition for their contribution when the  
paper is reused.

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 34.9 days after  
submission; acceptance to publication is undertaken in  
15.2 days (median values for papers published in this  
journal in the first half of 2025).

##### Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and  
reviewer names published annually in the journal.
