

Special Issue

Model Calibration, Validation, and Evaluation for Estuarine Environmental Research

Message from the Guest Editors

The Special Issue provides a platform to explore model calibration, validation, and evaluation for estuarine environmental research. Papers on numerical modeling and field observation to support model calibration, validation, and evaluation on estuarine environments are highly welcomed in this Special Issue.

- model calibration, validation, and evaluation
- estuarine management
- climate change
- anthropogenic effect
- numerical modeling
- hydrodynamics
- freshwater–saltwater interaction
- water quality and pollutant transport
- sediment transport
- ecosystem
- estuarine environmental monitoring

Guest Editors

Prof. Dr. Wen Cheng Liu

Department of Civil and Disaster Prevention Engineering, National United University, Miaoli 36063, Taiwan

Dr. Wei-Che Huang

Maribor, Slovenia

Author Benefits

Open Access:

free for readers to download, share, and reuse content.
Authors receive recognition for their contribution when the
paper is reused.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 34.9 days after
submission; acceptance to publication is undertaken in
15.2 days (median values for papers published in this
journal in the first half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and
reviewer names published annually in the journal.
