

## Special Issue

# Benford's Law(s) and Applications (Second Edition)

### Message from the Guest Editors

We are glad to announce a “Stats” Special Issue on “Benford’s Law(s) and Applications (Second Edition)”. We are inviting manuscripts on Benford’s Law(s) theory, testing, and applications in widely different scientific contexts. Suitable manuscripts may include but are not limited to the Benford’s Law(s) for fraud detection and assessment of data quality and reliability; conformance tests; applications in and outside accounting; and theoretical foundations. The purpose of this Special Issue is to collect, in a single source, for better visibility, recent theoretical and applied advancements in a still-progressing field. We look forward to receiving your submissions.

### Author Benefits

#### High Visibility:

indexed within ESCI (Web of Science), Scopus, RePEc, and  
other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 22.3 days after  
submission; acceptance to publication is undertaken in 3.8  
days (median values for papers published in this journal in  
the second half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review  
reports receive vouchers entitling them to a discount on  
the APC of their next publication in any MDPI journal, in  
appreciation of the work done.
