

Special Issue

Benford's Law(s) and Applications

Message from the Guest Editors

We are glad to announce a “Stats” Special Issue on “Benford's Law(s) and Applications”. We are inviting manuscripts on Benford's Law(s) theory, testing, and applications in widely different scientific contexts. Suitable manuscripts may include but are not limited to the Benford's Law(s) for fraud detection and assessment of data quality and reliability; conformance tests; applications in and outside accounting; and theoretical foundations. The purpose of this Special Issue is to collect, in a single source, for better visibility, recent theoretical and applied advancements in a still-progressing field. We look forward to receiving your submissions.

Guest Editors

Prof. Dr. Claudio Lupi
Prof. Dr. Roy Cerqueti
Prof. Dr. Marcel Ausloos

Deadline for manuscript submissions

closed (30 June 2022)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Wei Zhu

Department of Applied Mathematics and Statistics, State University of
New York at Stony Brook, Stony Brook, NY 11794, USA

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, RePEc, and
other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 22.3 days after
submission; acceptance to publication is undertaken in 3.8
days (median values for papers published in this journal in
the second half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review
reports receive vouchers entitling them to a discount on
the APC of their next publication in any MDPI journal, in
appreciation of the work done.
