

Special Issue

Theme Issue Honoring Professor Bradley Efron on His Retirement

Message from the Guest Editor

We are pleased to propose a Special Issue in honor of Stanford Professor Emeritus Bradley Efron. Professor Efron's contributions to the field of statistics have revolutionized approaches to statistical inference and data analysis and have made critical scientific insights possible. Among his numerous honors, he was awarded the prestigious National Medal of Science (2005), the Guy Medal in Gold by the Royal Statistical Society (2014), and the International Prize in Statistics (2018). This Special Issue welcomes both manuscripts describing original work and review articles. We invite submissions that focus on areas in which he has worked, including bootstrap, empirical Bayes, large-scale inference, exponential families, and clinical trials. Articles that relate to Professor Efron's other research interests will also be considered.

Guest Editor

Prof. Dr. Karen Kafadar

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Wei Zhu

Department of Applied Mathematics and Statistics, State University of
New York at Stony Brook, Stony Brook, NY 11794, USA

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, RePEc, and
other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 18.2 days after
submission; acceptance to publication is undertaken in 2.9
days (median values for papers published in this journal in
the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review
reports receive vouchers entitling them to a discount on
the APC of their next publication in any MDPI journal, in
appreciation of the work done.
