

Special Issue

Surface Modification and Coating to Improve Properties of Various Materials

Message from the Guest Editors

We are pleased to announce the Special Issue entitled “Surface Modification and Coating to Improve Properties of Various Materials”. This Special Issue is focused on significant developments in surface and interface engineering to modify and improve the surface properties of materials. Also, we will publish high-quality submissions on any subject relevant to this important field, especially articles concerning surface modification and coatings on polymer, ceramic, and metal using unique skills. The topics of this Special Issue include, but are not limited to, the keywords. In this Special Issue, we wish to cover the most recent advances in all these kinds of surface treatments developed to improve surface properties. We encourage researchers to submit original research articles, reviews, and communications.

Guest Editors

Dr. Jaeho Kim

Department of Materials Science and Engineering, Faculty of Engineering, University of Fukui, Fukui 910-8507, Japan

Prof. Dr. Susumu Yonezawa

Headquarters for Innovative Society-Academia Cooperation, University of Fukui, Fukui 910-8507, Japan

Deadline for manuscript submissions

closed (30 November 2024)

About the Journal

Message from the Editor-in-Chief

Surfaces and interfaces are ubiquitous, and their relevance in Chemistry, Physics, Catalysis, Materials Science & Engineering, Nanoscience, Biology and Nanomedicine is nowadays well acknowledged. Similarly, surfaces cannot be neglected when targeting applications in many strategic fields, such as sensors, energy conversion and storage, environmental and food science, and medical devices.

Surfaces is a new Open Access journal that will provide rapid publication of scholarly articles on studies related to surfaces and interfaces. Its mission is to publish cutting edge articles and conference proceedings and organizing special issues to highlight outstanding research on specific topics, encouraging the application of a rigorous Surface Science-based approach to many complex interesting phenomena and breaking boundaries among different disciplines.

Editor-in-Chief

Prof. Dr. Gaetano Granozzi

Department of Chemical Science, Università degli Studi di Padova,
Padua, Italy

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, Inspec, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).

Journal Rank:

CiteScore - Q2 (Materials Science (miscellaneous))
